Title	Thailand gears up to be 'the energy hub of asia' with Ministry of Energy setting the stage for it next deceber		

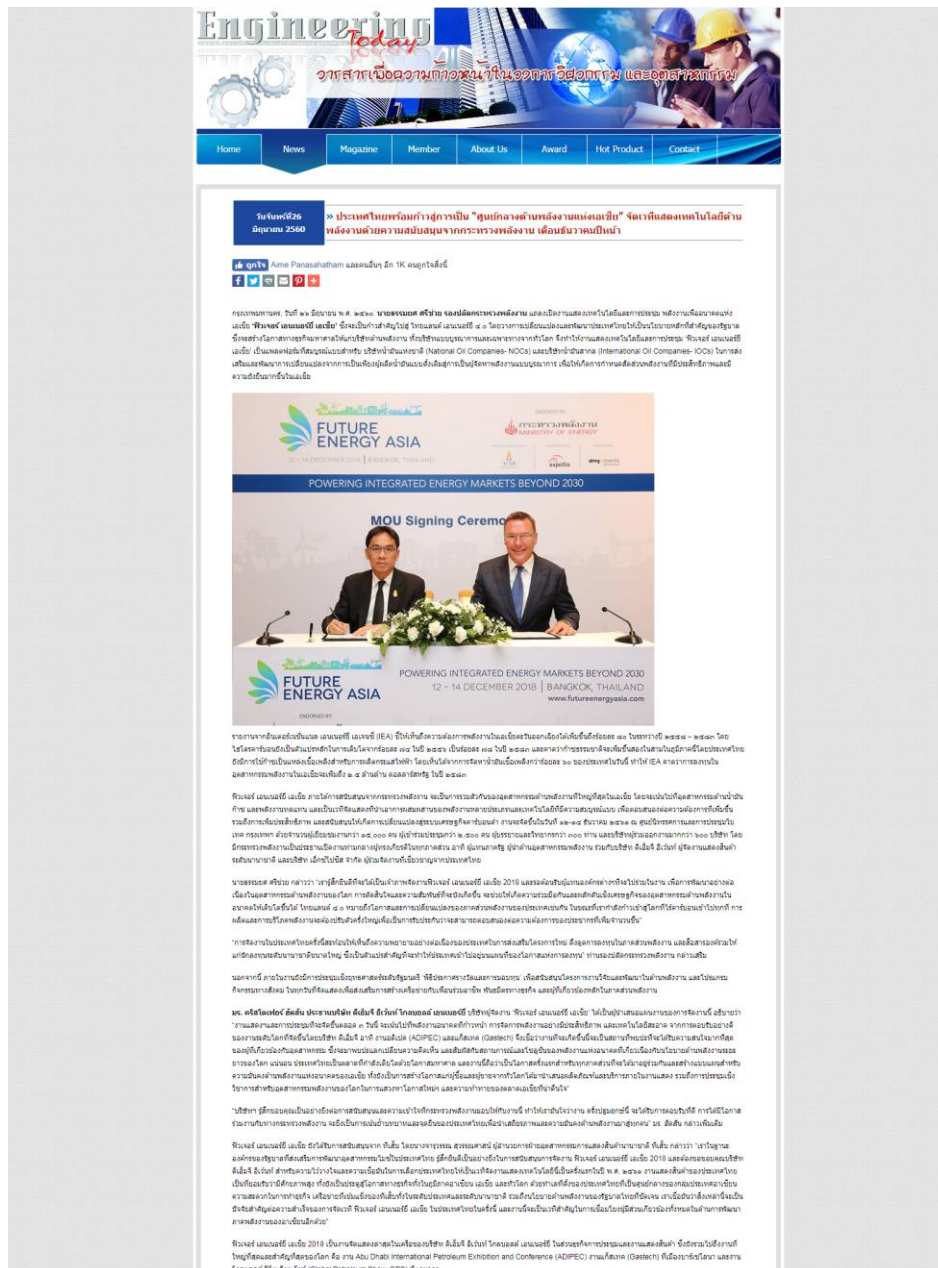

Mr. Thammayot Srichuai, Deputy Permanent Secretary, Ministry of Energy launches 'Future Energy Asia Exhibition & Conference' that is an important step towards 'Thailand's Energy 4.0'. The transformation and development of Thailand is a major priority for the government which creates incredible business opportunities for both integrated and non-integrated energy companies globally. As such, 'Future Energy Asia Exhibition & Conference' is the perfect platform for NOCs and IOCs to foster the transition from traditional fuel suppliers to integrated energy providers for a more efficient and sustainable energy mix across Asia.
